

Pet Insurance

Insurance can be very helpful to ensure that you can address unexpected medical conditions for your pet. There are many options to choose from and we encourage you to do as much research as possible to determine the best company and policy for your pet. All pet insurance policies are set up to reimburse you, the owner, after a review of the case and charges. Payment for services at Sunrise Pet Clinic, an emergency clinic or specialty service (such as a veterinary surgeon) are still paid by the owner at the time of service. Sunrise Pet Clinic staff and doctors will provide whatever records are needed for your claim(s). A good resource to get started can be found online at "Pet Insurance U". The website is:
